rd ANNIVERSARY

Third time still going *lucky*

Luck is a healthy combination of aspiration and hard work.

Neither exists without the other.

Three years since Keventerian first began, three years since we began documenting our luck, today we can proudly say that we have the most dedicated family who share the same passion

for adventure and challenges.

And that is not just luck, *we are just lucky.*

To New Beginnings!

A new year, a new adventure! As we look back at the fond moments we shared, we look forward to several more. A joyous time, filled with resolutions, promises, excitement and new achievements to be made.

Here's to living life to the fullest and a prosperous future.

Happy New Year!
